

## Seung-hwan Leo Kim

seungkim.h@gmail.com · (610) 570-1784 · 135B Chiswick Rd, Brighton, MA 02135

### EDUCATION

---

<b>Nondegree studies</b> , Boston College & Harvard Extension School	2022–current
Minor requirements in Biology fulfilled at BC; organic chemistry with online lab at HES	
<b>MA in Linguistics</b> , Boston College	2020–2022
<b>BA in Linguistics</b> , Boston College	2016–2020
Minor in Computer Science, Phi Beta Kappa, magna cum laude	
<b>Certificate of High School Equivalency (GED)</b>	2013

### SKILLS

---

**Laboratory:** Cell plating, PCR, gel electrophoresis, western blots, imaging (brightfield, phase, fluorescence)  
**Computer:** Front-end web development (React.js), Python, R, Git, LaTeX  
**Language:** English & Korean (native), French & Portuguese (reading), courses in other modern and classical languages  
**Multimedia:** Photography, GIMP, Serif Affinity Photo & Designer, DaVinci Resolve, ImageJ

### RELEVANT COURSES

---

**Biology:** Energy Flow in Biological Systems, Molecules & Cells, Ecology & Evolution, Molecular Cell Biology Lab, Intro to Genetics, Biostatistics, Deep Sea Biology, Advanced Lab in Cell Imaging  
**Mathematics:** Calculus II, Experiment Design & Statistics (Grad), Multiple Regression (Grad)  
**Others:** Principles of Organic Chemistry, Organic Chemistry of Life, Virtual Organic Chemistry Lab (current), Introductory Earth Science

### SELECTED WORK HISTORY

---

**Digital Initiatives & Scholarly Communication Specialist**, Boston College Law Library Jun 2022–current  
Generalist position in a highly collaborative environment. Responsible for archiving and showcasing the Boston College Law School's intellectual output online. Led the redesign of the homepage of the Law Library. Developed web applications, presented at three conferences, and created award-winning social media posts (Instagram: @bclawlibrary). Currently Co-Chair of the Staff Advisory Senate, organizing events for staff across five campuses.

**Teaching Assistant**, Harvard Extension School Sep 2024–current  
Instruction support for Principles of Organic Chemistry. Responsible for teaching weekly discussion sections, holding office hours, proctoring exams, and grading student submissions.

**Language Expert**, Nuance Communications (Microsoft) Jun 2021–Mar 2022  
Bug-fixing and writing pronunciations for AI speech recognition systems in English and Korean, serving major clients including Comcast and Sony PlayStation. Also worked on a project to reduce demographic bias in speech recognition.

**Graduate Assistant**, Boston College Aug 2020–May 2022  
Instruction support for linguistics courses. Graded assignments, held office hours, and managed communications in hybrid classes. Taught three hours of class on Korean linguistics. Developed a web app for students to practice the International Phonetic Alphabet.

**Tutor**, Boston College Connors Family Learning Center & Private 2019  
Tutoring in introductory computer science, statistics, and writing for non-native speakers of English.

**Undergraduate Research Fellow**, Boston College & Adam Mickiewicz University May 2019–Jan 2021  
Research support for three professors. For Professor Margaret Thomas, research and editing for *Formalism & Functionalism in Linguistics* (Routledge, 2019); for Professor Christina Klein, archival research, translation, and editing for South Korean *Cold War Cosmopolitanism* (University of California Press, 2020); for Professor Marcin Kilarski, archival research for *A History of the Indigenous Languages of North America* (John Benjamins, 2021).

In addition, for Professor Thomas, developed a professional website, wrote informational pamphlet on the linguistics major distributed to over 2000 incoming freshmen, and designed a poster and wrote social media copy for the LingStoryCorps project of the Linguistic Society of America.

**Research Intern**, Concepts & Cognition Laboratory, Temple University Summers 2017, 2018  
As a team, designed and ran psycholinguistics experiment on over 50 participants and co-authored resulting publication. Wrote script in Python to collect nouns containing expletives from Reddit for a study on sound-meaning relationships. Returned for a second summer to continue research and to help train new interns.

---

## VOLUNTEER WORK

---
